Board Chair recognized Shalane Tobler for discussion at this time. Shalane addressed the board she shared with the board that she graduated from Salish Kootenia College. Her first day here at school she was frightened which was her first time teaching. No teacher is fully prepared on the first day of school for her it was intriguing, exciting and frightening. This year has been different for her because she was asked to be the art teacher at the end of last year. The first week came I taught art and it was awesome, the second week came she was teaching first grade. Teaching first grade was frightening because she had never taught first grade before and she didn't know the curriculum. She had approximately 35 first graders which was learning experience. She stated if the board did not hire her back she just wanted to thank the board for the experience given her. She also provided her Dibels data with her to share with the board and the increases on the data for first grade granted none of the teachers had taught first grade before. Her first grade know how to read by pronouncing the letters. She also provided her summative evaluations from the years past.

Board Chair asked Shalane to wrap up her presentation so the board can conduct their business.
